**Subject:** FW: Request Update on Nursing Mothers' Room

Hi Michelle,

I wanted to also mention that we were told initially that the dead bolt was a must b/c "anyone" could get the key so now they are saying that the b/r isn't in use anymore but if anyone can get the key then there is potential that anyone can use the b/r too. I guess they want it both ways.

Nicole

Subject: RE: Request Update on Nursing Mothers' Room

Hi Jill,

The designated space is not a bathroom but is adjacent to a bathroom which is no longer in use with a lockable door between the two different rooms. It meets the requirements as enunciated in the letter: Thank you.

Grace

Subject: Request Update on Nursing Mothers' Room

Hi Ceci & Grace –

I've attached a recent memo from HRD regarding the requirements of a Nursing Mothers' Room for State Agencies. The Nursing Mothers' room here at the State Laboratory is a bathroom, which contradicts the law (as presented in the memo). I trust that consideration of more appropriate locations is underway. Please provide an update in relation to this.

Thank you,  
Jill
